

# LADY IN RED 12TH EDITION

## ARTIST SERIES

*An everyday wine for everyone!*

### VINIFICATION:

The fruit used to produce Lady In Red #12 was grown at several outstanding locations around the Yakima Valley and Columbia Valley, including our own Kestrel View Estate Vineyard. Grapes from the chosen sites produce wines brimming with ripe red fruit flavors, and generous mouthfeel. The fruit which composes Lady In Red #12 was carefully picked at its height of maturity, then de-stemmed and crushed leaving 15% whole berries. It was fermented at 85° F in small batches for 7 to 10 days, then gently pressed so as not to extract any harsh tannins. Fifty percent was then aged in small oak barrels until bottling.

### WINEMAKER NOTES:

This wine possesses a deep cherry color. In the aroma you will find strawberry, cherry, red current and red licorice flavors. These are balanced by wispy floral aromas of citrus blossoms and roses. The wine's sweet palate ripples with delicate fruit flavors, and finishes with a lingering silky cherry note.

### YOUR TASTING NOTES:
